- Built responsive, accessible, and dynamic web pages to enable all users can navigate site.
- Used Ant Design to create aesthetic graphs and charts to display consensus data results.
- Source code: github.com/hgbaodev/chat-app.

Education Manager SGU | *ReactJs, Laravel, Material UI, MySQL, Git, VS Code*

May 2023

- Designing user interfaces and analyzing database designs.
- Automating processes for educators through a web platform.
- Using restful api, authentication jwt with token
- Integration of Google login and sending OTP for email verification.
- Handling large volumes of requests, simultaneous access by multiple users.
- Facilitating student contact with employers through a web platform.
- Used Material UI to create aesthetic graphs and charts to display consensus data results.
- Source code: github.com/hgbaodev/appspec.
- Demo: dkcn.hgbaodev.id.vn.

Shoe Shop | *ASP.NET core MVC, HTML, CSS, Bootstrap, JQuery, Git, VS Code*

Otc. 2023

- Designing user interfaces and analyzing database designs.
- Using SignalR to handle real-time processing of orders, comments, and purchases.
- Integration of Google login and sending OTP for email verification.
- Integrating PayPal payment to pay for orders.
- Source code: github.com/hgbaodev/shoeshop.

Manager Test | *PHP, MVC, HTML, CSS, Bootstrap, JQuery, Git, VS Code*

Otc. 2023

- Designing user interfaces and analyzing database designs.
- Assisting users in creating and taking online exams..

- Integration of Google login and sending OTP for email verification.
- Built responsive, accessible, and dynamic web pages to enable all users can navigate site.
- Source code: github.com/hgbaodev/shoeshop.

Trello Clone | *ReactJs, Material Ui, Epxress, MongoDB, Git, VS Code*

Otc. 2023

- Designing user interfaces and analyzing database designs.
- Implementing drag-and-drop interface functionality.
- Integration of Google login and sending OTP for email verification.
- Built responsive, accessible, and dynamic web pages to enable all users can navigate site.
- Source code: github.com/hgbaodev/trello.

EXPERIENCE

Web Developer | *SGU*

Sept. 2023 – Present

- Collaborating with educators and institutions to craft innovative web solutions.
- Active involvement in IT clubs at the university.
